

YOUR GIVING MATTERS

2020 Impact Report

760
Local Families

Have had safe homes to shelter in and the financial stability needed to weather this crisis thanks to their quality, affordable Habitat home.

16
Single Moms

Built safe, stable Habitat homes this year for their children. 65% of local Habitat families are women-led households! #StrongHabitatMoms

34
Children

Moved into Habitat homes this year. Children who grow up in a home OWNED by their parents are more likely to go to college.

40
Homes Built

Despite postponing 17 families from building this year due to COVID and decreased funding, we're grateful for the 40 families we did build with!

105
Homes Repaired

94 projects helped seniors age in place. Repair projects are an important part of our neighborhood revitalization efforts.

2.5K
Volunteers

Due to COVID, we had only 1/4 of our volunteers this year. This led to fewer homes built and higher costs to pay contractors to finish homes.

22
Pay Offs

147 families in total now have paid their mortgages off in full. Their family will benefit for generations to come from this asset - their home.

743

Mortgage Questionnaires

This is the first step before an application is submitted. This shows the enormous demand in our area for safe and affordable homes.

\$950K
Property Taxes Paid

Local Habitat families help our schools and cities thrive by paying almost \$1,000,000 in property taxes every year!

"Thanks to my affordable Habitat mortgage, I was able to take leave and the reduced pay to care for my boys and help with their schooling during this crisis." – Janessea Leadely
